

About Us

The YASH IT Support is your first point of contact for all requests, queries and issues (faults or problems) concerning YASH provided IT facilities and services. We provide a means to reach out to our specialized team regardless of the location and medium being it virtually available anytime, anywhere. The performance of YASH's service desk is an indicator of the overall health of our organization's IT. We also play a critical role in ensuring reliability, availability and continuity of IT services rather than just logging and resolving end-user issues.

We help YASH efficiently manage software, hardware, and human resource services to ensure continued and uninterrupted business. By integrating people, products and processes for speedy incident resolution, improved end-user productivity, and optimal service quality, we are able to minimize business impact, deploy the right infrastructure, tools, processes and people to enable a rapid transition and deliver a robust, cost-effective service; all while balancing the needs of our users, and the priorities of the company.

The team encompasses helpful, friendly, knowledgeable staffs who are supported by a technical infrastructure that allows us to understand your technical environment, deploy applications, updates and patches, as well as detect problems.

Our wide range of services includes but is not limited to:

Logging all relevant incident/service request details, and allocating categorization and prioritization codes

Providing first line investigation and diagnosis

Resolving those incidents/service requests that do not need escalation across IT

Escalating incidents/service requests that the service desk cannot resolve within agreed time scales

Closing all resolved incidents, service requests and other calls

Conducting user satisfaction surveys

Communication with users - keeping them informed of incident progress, notifying them of impending changes or agreed outages, etc.

Updating the configuration management system under the direction and approval of configuration management if so agreed

General Service expectations and standards include:

Reduce costs and time to fix incidents

Keep businesses running efficiently

Improve customer service perception and satisfaction

Increase accessibility to assistance/help through a single point of contact, communication, and information

Better quality and quicker turnaround of customer/user requests

Enhance focus and a proactive approach to service provision

Better managed infrastructure and control

Improve usage of IT support resources and increase productivity of business personnel

Our ultimate aim and goal is to provide strategic information to our company for advantages and ensure that proper mechanisms are in place for data collation, analysis and seamless distribution, based on the prevailing best practices and thus meet the requirements of the company.

YASH Escalation Matrix (Internal-IT)		
Department	Level-1	Level-2
ITSD	ITSD TEAM Email ID: itsdteam@yash.com	Aravind Raghavan Team Lead Ph No: +91 9600086181

		Email : aravind.raghavan@yash.com Kuldeep Solanki Associate Architect Ph No: +91 9826244200 Email : kuldeep.solanki@yash.com
WINTEL	ITSD TEAM Email ID: itsdteam@yash.com	Ims-wintel Email ID: ims-wintel@yash.com
Messaging (Email/Teams)		Global-MSG-Team Email ID: global-msg-team@yash.com
Network	ITSD TEAM Email ID: itsdteam@yash.com	Network Team Email ID: networkteam@yash.com

The escalation matrix to be followed while escalating any IT related issues at YASH is as follows:

Tier 1 - will assess your escalation/issue/request and based on the impact and urgency of your escalation/request/issue and will share the ETA or resolution time. Your escalation/request/issue is resolved within the ETA shared.

Tier 2 - escalation should be followed only if Tier 1 is unable to resolve the issue or unable to resolve the issue within the stipulated time.

Tier 3 - escalation should be followed if and only if you are not satisfied with the resolution of any of the above Tiers within stipulated time.
